23	Salcombe is missing most facilities other than clothes shops, the facilities it provides however are often way over priced. I chose to shop elsewhere as it is cheaper and I tend to have better options for example the DIY is hardly ever open, The garage at the top of the hill looks derelict and doesn't really look like it will attract business. The one selling point to Salcombe is how the Harbour have made an effort to make it affordable to everyone whilst catering for everybody's needs. Kingsbridge offers better facilities, In a town where its renown for being full of tourists there is a distinct lack of effort put in to making the town look pretty, the streets are filthy and have filled with potholes and there is little to no effort put in to making Salcombe a more stunning area. Kingsbridge gets flowers and in areas are presented in a wonderful way, why could this not be continued in Salcombe? Surely that could be seen as a selling point to this town? Maybe some plants and or fountains? Do we really need Whitstrand Car Park it just congests the town.	5/6/2015 1:12 AM
24	no logo cloths shops	5/5/2015 8:49 PM
25	Mostly to Kingsbridge- leisure ctr, cinema, weekly food shop, haircut, tools, paint, household goods etc. Nothing available in Salcombe - bit like living in Butlins. Thank God we live in a beautiful backwater on the edge of town and can readily escape for shopping/recreation in less stressed locales without driving into town. SHDC's lack of concern about amenities for residents is reflected in the towns main recreational facilities meeting hall/library etc being housed in Cliff House rather than in council funded property - I believe the Town Clerk/Council uses it also. I have worked at senior levels in local gov.'t (chartered municipal engineer) Depts of Environment and Transport and as a consultant to public authorities in the SW and since moving to Salcombe have become increasingly disillusioned at the indifference of authorities to the happiness of RESIDENTS.	5/5/2015 7:29 PM

148	I try to shop as local as possible but sometimes it does not warrant it. I shop in Kingsbridge I think as equally as to Salcombe because between the two there is enough variety. 374	we go to kingsbridge every two weeks for "base ingrediants" shop and use local shops in salcombe for day to day top up. we have lived and worked in many places (including on the estuary). our average commute time has never been less than 40 mins, and often as today well over 90 mins. in the uk it ranges from 40-75 mins. it does not mean salcombe should accept the status quo, but it is clear that a journey to work, whilst inefficient, is quite normal in the UK. It is often normal for smaller towns to charge a bit more for their services due to the scale- however i think the business owners in Salcombe on the whole do an excellent job providing value to their local shoppers. Driving to shops 25 mins is also normal but of course not desirable. local deliveries by retailers help.	3/10/2015 2:44 PM

For the local community and holiday makers, it would be nice to see a fair priced supermarket, but then residents and holidaymakers seem to shop in Kingsbridge where there are two supermarkets. The bus service is adequate for those without a car.	3/8/2015 4:15 PM
